

**ABSTRACT OF THE DISCLOSURE**

This device will be available to the pool owner to clean the surface debris from a pool on a twenty-four hour seven day a week basis. It is free standing and can be moved from location to location around the perimeter of the pool depending on the pool. The ability to move it from location to location allows maximum efficiency to clean a pool. The device allows the net to be adjusted in a vertical direction to accommodate the varying level of water in the pool.
